

AviCenna® CMS

Clinical Management System

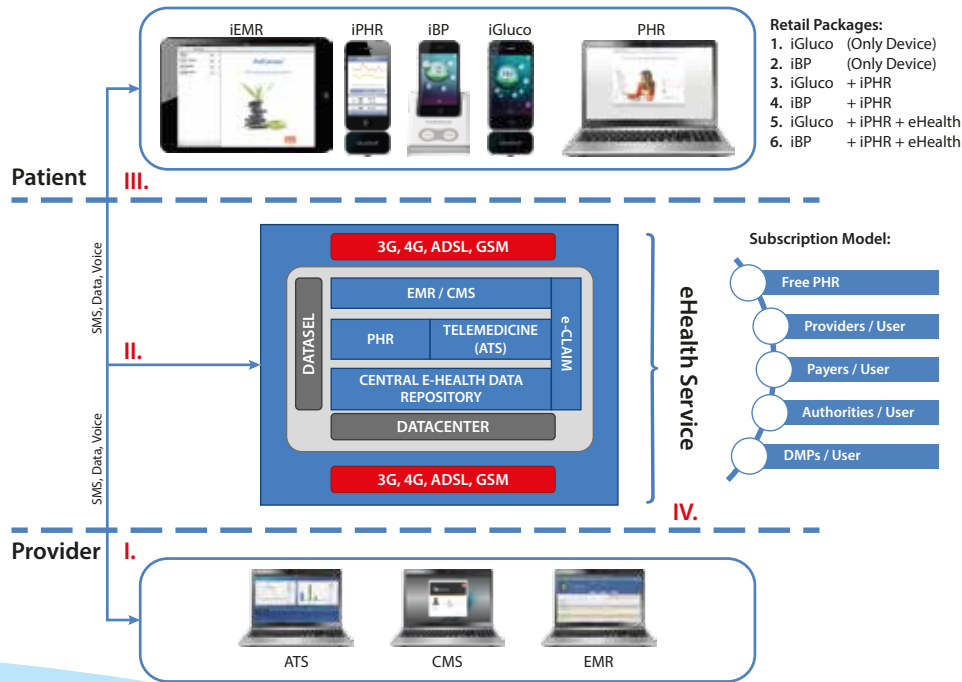

*“End-to-End solution that
covers all your needs...”*

AviCenna® CMS

Clinical Management System

AviCenna CMS is a complete "end-to-end" web-based Clinical Management System solution that addresses all the requirements of small to mid-sized healthcare providers and extends the commonly used Electronic Health Records' functionality to a full medical, administrative and financial management system that is capable of telemonitoring / telemedicine and chronic disease management.

- Online appointment functionality and CRM functions like SMS reminders, mobile access ...
- eClaims, ePrescriptions and Prior Authorizations
- EGM code based documentation without gaps
- Interact with patient:
 - Personal Health Record function
 - Telemedicine function for Chronic Disease Management
 - Remote Patient Monitoring
- Fully compliant with international medical standards (HL7, DICOM, ICD, CPT, DRG) and requirements (HAAD, DHA, SGK, MoH ...)
- Web-based Software as a Service (SaaS)
- Cost effective monthly subscription model
